

# Computing

## Intent

Technology is changing the lives of everyone. Through teaching computing we equip our children to participate in a rapidly changing world where work and leisure activities are increasingly transformed by technology. At Kingsthorne, we aim to prepare our learners for their future by giving them the opportunities to gain knowledge and develop skills that will equip them for an ever changing digital world. Knowledge and understanding of ICT is of increasing importance for children's future both at home and for employment. Our Computing curriculum focuses on a progression of skills in digital literacy, computer science, information technology and online safety to ensure that children become competent in safely using, as well as understanding, technology. These strands are revisited repeatedly through a range of themes during children's time in school to ensure the learning is embedded and skills are successfully developed. Not only do we want them to be digitally literate and competent end-users of technology but through our computer science lessons we want them to develop creativity, resilience and problem-solving and critical thinking skills. Our intention is that Computing also supports children's creativity and cross curricular learning to engage children and enrich their experiences in school.

## Implementation

At Kingsthorne, computing is taught in discrete computing lessons. The computing curriculum is delivered using support from the Purple Mash scheme of work, which has been organised to link with other subjects and provide the children with an immersive experience. We have chosen to use Purple Mash as the scheme has been closely referenced against the 2014 National Curriculum attainment targets in order to ensure progression and coverage, it is easily accessible to both pupils and staff, and it also provides extensive support for our teachers to deliver effective and meaningful computing lessons. Having discrete lessons means that the children are able to develop depth in their knowledge and skills over the duration of each of their computing topics. Where appropriate, meaningful links will be made between the computing curriculum at the wider curriculum. In computing lessons, the children will use either the iPads or laptops in order to access a range of apps and software. Discrete computing lessons will focus on the curriculum skills of information technology, digital literacy and computer science. These skills are regularly revisited and embedded through the themes we use: Coding and computational thinking, Spreadsheets, Internet and Email, Databases and graphing, Writing and presenting, Communication and networks, Using technology for Art, Design and Music. Children will be given feedback and ways to improve their work either verbally or via Purple Mash.

|--|--|--|--|

## Year 2

| <b><u>Coding and computational thinking</u></b>  | <b><u>Spreadsheets</u></b>  | <b><u>Internet and Email</u></b>  | <b><u>Art and design</u></b>   |
|--|---|---|--|
| <p>Children can explain that an algorithm is a set of instructions.</p> <p>Children can describe the algorithms they created.</p> <p>Children can explain that for the computer to make something happen, it needs to follow clear instructions.</p> | <p>Children can explain what rows and columns are in a spreadsheet.</p> <p>Children can open, save and edit a spreadsheet.</p> <p>Children can add images from the image toolbox and allocate them a value.</p> | <p>Children can use the search facility to refine searches on Purple Mash by year group and subject.</p> <p>Children can share the work they have created to a display board.</p> | <p>Children can explain what is meant by impressionist art.</p> <p>Children can use 2Paint a Picture to create art based upon this style.</p> <p>Children can explain what pointillism is.</p> |

|  |   |  |  |
|--|---|--|--|
| <p>Children know that the Turtle and Character objects have different properties and move in different ways. They can begin to make choices about which object type to use.</p> <p>Children are beginning to understand that the Repeat and Timer commands both make objects repeat actions but function differently and the type of object can affect which is the best command to use.</p> <p>Children can include a button in their programs.</p> <p>Children can explain what debug (debugging) means.</p> <p>Children have a clear idea of how to use a design document to start debugging a program.</p> <p>Children can debug simple programs.</p> <p>Children can explain why it is important to save their work after each functioning iteration of the program they are making.</p> <p>Children can create a computer program using different objects.</p> <p>Children can predict what the objects in classmates' programs will do, based on my knowledge of the objects' limitations, e.g. a turtle can only move in specific ways.</p> <p>Children can explain how they know that certain objects can only move in certain ways.</p> <p>Children can plan and use algorithms in programs successfully to achieve a result.</p> <p>Children can plan and use algorithms in programs successfully to achieve the desired a result.</p> <p>Children can code a program using a variety of objects, actions, events and outputs successfully.</p> | <p>Children can add the count tool to count items.</p> <p>Children can use copying a pasting to help make spreadsheets.</p> <p>Children can use tools in a spreadsheet to automatically total rows and columns.</p> <p>Children can use a spreadsheet to solve a mathematical puzzle.</p> <p>Children can use images in a spreadsheet.</p> <p>Children can work out how much they need to pay using coins by using a spreadsheet to help calculate.</p> <p>Children can create a table of data on a spreadsheet.</p> <p>Children can use the data to create a block graph manually.</p> | <p>Children understand that the teacher approves work before it is displayed.</p> <p>Children are beginning to understand how things can be shared electronically for others to see both on Purple Mash and the Internet.</p> <p>Children understand how 2Repond can teach about how to use email.</p> <p>Children can open and send an email to a 2Respond character.</p> <p>Children have discussed their own experiences and understanding of what email is used for.</p> <p>Children have discussed what makes us feel happy and what makes us feel sad?</p> <p>Children can explain what a digital footprint is.</p> <p>Children can give examples of things that they wouldn't want to be in their digital footprint.</p> <p>Children can recall the meaning of key internet terms.</p> <p>Children have completed a quiz about the Internet.</p> <p>Children can identify the basic parts of a web search engine search page.</p> <p>Children have learnt to "read" a web search results page.</p> <p>Children can search for answers to a quiz on the internet.</p> <p>Children have created a leaflet to consolidate their knowledge of effective Internet searching.</p> | <p>Children can use 2Paint a Picture to create art based upon this style.</p> <p>Children can describe the main features of Piet Mondrian's work.</p> <p>Children can use 2Paint a Picture to create art based upon his style.</p> <p>Children can describe the main features of art that uses repeating patterns.</p> <p>Children can use 2Paint a Picture to create art by repeating patterns in a variety of ways.</p> <p>Children can combine more than one effect in 2Paint a Picture to enhance their patterns.</p> <p>Children can describe surrealist art.</p> <p>Children can use the eCollage function in 2Paint a Picture to create surrealist art using drawing and clipart.</p> |
| <p><b>Music</b></p> <p>Children understand what 2Sequence is and how it works.</p>   | <p><b>Database and Graphing</b></p> <p>Children understand that the information on pictograms cannot be used to answer more complicated questions.</p>  | <p><b>Writing and Presenting</b></p> <p>Children have examined a traditional tale presented as a mind map, as a quiz, as an e-book and as a fact file.</p>   | <p><b>Communication and networks</b></p> <p><b><u>Not covered this year.</u></b></p>   |

|  |  |   |   |  |
|--|--|---|---|--|
| <p>Children have used the different sounds within 2Sequence to create a tune.</p> <p>Children have explored how to speed up and slow down tunes.</p> <p>Children understand what happens to the tune when sounds are moved.</p> <p>Children have added sounds to a tune they've already created to change it.</p> <p>Children have considered how music can be used to express feelings.</p> <p>Children can change the volume of the background sounds.</p> <p>Children have created two tunes which depict two feelings.</p> <p>Children have uploaded and used their own sound chosen from a bank of sounds.</p> <p>Children have created, uploaded and used their own recorded sound.</p> <p>Children have created their own tune using some of the chosen sounds.</p> | <p>Children have used a range of yes/no questions to separate different items.</p> <p>Children understand what is meant by a binary tree.</p> <p>Children have designed a binary tree to sort pictures of children.</p> <p>Children understand that questions are limited to 'yes' and 'no' in a binary tree.</p> <p>Children understand that the user cannot use 2Question to find out answers to more complicated questions.</p> <p>Children have matched the 2Simple Avatar pictures to names using a binary tree.</p> <p>Children understand what is meant by a database.</p> <p>Children have used a database to answer simple and more complex search questions.</p> | <p>Children know that digital content can be represented in many forms.</p> <p>Children have made a quiz about a story using 2Quiz.</p> <p>Children can talk about their work and make improvements to solutions based on feedback received.</p> <p>Children have extracted information from a 2Connect file to make a publisher fact file on a nonfiction topic.</p> <p>Children have added appropriate clipart.</p> <p>Children have added an appropriate photo.</p> <p>Children know that data can be structured in tables to make it useful.</p> <p>Children can use a variety of software to manipulate and present digital content and information.</p> <p>Children can collect, organise and present data and information in digital content.</p> <p>Children can create digital content to achieve a given goal by combining software packages.</p> |   |  |
| <p><b><u>Topic Title</u></b><br/>Online Safety<br/><b><u>Links to NC</u></b><br/><u>Digital Literacy</u><br/>Use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet t other online technologies.</p> <p><b><u>Key Knowledge &amp; Vocabulary</u></b><br/>Search tool, e mail, share, communicate, internet, open and send e mails, digital footprint, trail, safety, secure,</p>   | <p><b><u>Topic Title</u></b><br/>Coding<br/><b><u>Links to NC</u></b><br/><u>Computer Science</u><br/>Understand what algorithms are; how they are implemented as programs on digital devices; and that programs execute by following precise instructions.<br/>Create and debug simple programs.<br/>Use logical reasoning to predict the behaviour of simple programs.</p> <p><b><u>Key Knowledge &amp; Vocabulary</u></b></p>   | <p><b><u>Topic Title</u></b><br/>Creating Pictures<br/><b><u>Links to NC</u></b><br/><u>Information Technology</u><br/>Use logical reasoning to predict the behaviour of simple programs.<br/>Use technology purposefully to create, organise, store, manipulate and retrieve digital content.</p> <p><b><u>Key Knowledge &amp; Vocabulary</u></b><br/>Paint, draw, colour, pointillism, lines,<br/><b><u>Sequence of Lessons</u></b></p>   | <p>Coding links – jobs, coders are responsible for creating what we see on computers- showing a range of apps that use a repeat command.</p> <p>Creating pictures- artists and styles from around the world Seraut, Mondrian,</p> |  |

|  |   |   |   |
|--|---|---|---|
| <p><b><u>Sequence of Lessons</u></b><br/> I am learning to know how to refine searches using the search tool; To know how to share work electronically using the display boards; To use digital technology to share work on Purple Mash to communicate and connect with others; To have some knowledge and understanding about sharing more globally on the internet;</p> <p>I am learning to introduce e mail as a communication tool using the 2Respond simulations; To understand how we talk to others when they aren't there in front of us; To open and send simple online communications in the form of an e mail;</p> <p>I am learning to understand that information put online leaves a digital footprint or trail; To begin to think critically about the information they leave online; To identify steps that can be taken to keep personal data and hardware secure.</p> <p><b><u>How does this link build on previous learning?</u></b><br/> This unit builds on the Year 1 unit- Online safety and exploring Purple Mash.</p> <p>、</p> <p><b><u>Topic Title</u></b><br/> Spreadsheets</p> <p><b><u>Links to NC</u></b><br/> Information Technology<br/> Use technology purposefully to create, organise, store, manipulate and retrieve digital content.<br/> Recognise common uses of information technology beyond school.</p> <p><b><u>Key Knowledge &amp; Vocabulary</u></b><br/> Rows, columns, spreadsheet, open, save, edit, copy, paste, add images, toolbar, table of data,</p> <p><b><u>Sequence of Lessons</u></b><br/> I am learning to review previous use of spreadsheets.</p> <p>I am learning to use copying and pasting totaling tools.</p> <p>I am learning to use a spreadsheet to add amounts.</p> <p>I am learning to create a table and block graph.</p> | <p>2Code; program; algorithm;<br/> repeat; debug; command;</p> <p><b><u>Sequence of Lessons</u></b><br/> I am learning to understand what an algorithm is; To create a computer program using simple algorithms;</p> <p>I am learning to compare Turtle &amp; character objects; To use the button object; To understand how to repeat a command; to understand how to use the timer command.</p> <p>I am learning to know what debugging means; To understand the need to test and debug a program repeatedly; To debug simple programs.</p> <p>I am learning to create programs using different kinds of objects whose behaviours are limited to specific actions; To predict what the objects will do in other programs, based on their knowledge of what the object is capable of; To discuss how logic helped them understand that they could only predict specific actions, as that is what the objects were limited to.</p> <p>I am learning to use all the coding knowledge they have learned throughout their programming lessons to create a more complex program that tells a story.</p> <p><b><u>How does this link build on previous learning?</u></b><br/> This unit builds on the Year 1 Coding unit and builds on skills taught in other Year 1 units such as Grouping and sorting and Maze Explorers.</p> <p><b><u>Topic Title</u></b><br/> Effective Searching</p> <p><b><u>Links to NC</u></b><br/> Information Technology/Digital Literacy<br/> Use technology purposefully to create, organise, store, manipulate and retrieve digital content.<br/> Recognise common uses of information technology beyond school.<br/> Use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact t on the internet t other online technologies.</p> | <p>I am learning to be introduced to 2Paint A Picture. To look at the impressionist style of art.</p> <p>I am learning to recreate pointillist art and look at the work of pointillist artists such as Seurat.</p> <p>I am learning to look at the work of Piet Mondrian and recreate it using the lines template.</p> <p>I am learning to look at the work of William Morris to recreate it using the Patterns template.</p> <p>I am learning to explore surrealism and eCollage.</p> <p><b><u>How does this link build on previous learning?</u></b><br/> This unit builds on the Year 1 unit, Animated Storybooks</p> <p><b><u>Topic Title</u></b><br/> Making Music</p> <p><b><u>Links to NC</u></b><br/> Information Technology<br/> Use technology purposefully to create, organise, store, manipulate and retrieve digital content.<br/> Use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact t on the internet t other online technologies.</p> <p><b><u>Key Knowledge &amp; Vocabulary</u></b><br/> Explore sounds, edit, combine, sequence, add, create, upload, record,</p> <p><b><u>Sequence of Lessons</u></b><br/> I am learning to be introduced to making music digitally using 2Sequence. To explore, edit and combine sounds using 2Sequence.</p> <p>I am learning to add sounds to a tune they've already created to change it. To think about how music can be used to express feelings and create tunes which depict feelings.</p> | <p>Morris, Impressionist, Surrealism</p> <p>Questioning- applying to where yes no questions would be useful.</p> <p>Spreadsheets- what jobs may use spreadsheets, why they might be useful.</p> <p>Making music – music used in animations, games</p> <p>Presenting ideas- link to literacy story</p> <p>Searching- links to safety</p> |
|--|---|---|---|

|  |  |   |  |
|--|--|---|--|
| <p><b><u>How does this link build on previous learning?</u></b><br/>This unit builds on the previous Year 1 unit on spreadsheets.</p> <p><b><u>Topic Title</u></b><br/>Questioning</p> <p><b><u>Links to NC</u></b><br/><u>Information Technology</u><br/>Use logical reasoning to predict the behaviour of simple programs.<br/>Use technology purposefully to create, organise, store, manipulate and retrieve digital content.<br/>Recognise common uses of information technology beyond school.</p> <p><b><u>Key Knowledge &amp; Vocabulary</u></b><br/>Database, Avatar, Binary Tree, Pictogram</p> <p><b><u>Sequence of Lessons</u></b><br/>I am learning to show that the information provided on pictograms is of limited use beyond answering questions.</p> <p>I am learning to use YES or NO questions to separate information.</p> <p>I am learning to use 2Question (binary tree) to answer questions.</p> <p>I am learning to use a database to answer more complex search questions. To use the search tool to find information.</p> <p><b><u>How does this link build on previous learning?</u></b><br/>This unit builds on the Year 1 unit, Pictgrams</p> <p><b><u>NATIONAL ONLINE SAFETY</u></b><br/><i>Self-image and identity – Video and Activities 3- 4 (Activities 5 and 6 can be set up in the classroom throughout the week)</i></p> | <p><b><u>Key Knowledge &amp; Vocabulary</u></b><br/>Search, internet, safely,</p> <p><b><u>Sequence of Lessons</u></b><br/>I am learning to understand the terminology associated with searching.</p> <p>I am learning to gain a better understanding about searching on the internet.</p> <p>I am learning to create a leaflet to help someone search for information on the internet.</p> <p><b><u>How does this link build on previous learning?</u></b><br/>This unit builds on the Year 1 unit, Online safety and exploring Purple Mash.</p> <p><b><u>NATIONAL ONLINE SAFETY</u></b><br/><i>Online Bullying - Video and Activities 2 and 3</i></p> <p><i>Managing online information –Video and Activities 4 and 5 (Activity 1 could be set in another lesson)</i></p> <p><i>Health, wellbeing and lifestyle – Video and Activity 1</i></p> | <p>I am learning to upload a sound from a bank of sounds section. To record their own sound and upload it into the Sounds section. To create their own tune using the sounds which they have added to the sounds section.</p> <p><b><u>How does this link build on previous learning?</u></b><br/>The link to ICT and music is not made in Year 1, this is the first time this skill is taught.</p> <p><b><u>NATIONAL ONLINE SAFETY</u></b><br/><i>Privacy and security – Video and Activity 1</i></p> <p><i>Copyright and ownership – Video and Activity 1</i></p> |  |
|--|--|---|--|

|  |  |  |  |
|--|--|--|--|
| Online relationships – Video and Activity 2      |  |  |  |
| Online Reputation – Video and Activities 3 and 4 |  |  |  |

### Year 3

| <u>Coding and computational thinking</u>  | <u>Spreadsheets</u>  | <u>Internet and Email</u>  | <u>Art and design</u>               |
|---|--|--|-------------------------------------|
| <p>Children can create a design that represents a sequential algorithm.</p> <p>Children can use a flowchart design to create the code.</p> <p>Children can explain what Object, Action, Output, Control and Event are in computer programming.</p> <p>Children can explain how their program simulates a physical system, i.e. my vehicles move at different speeds and angles.</p> <p>Children can describe what they did to make their vehicle change angle.</p> <p>Children can show that their vehicles move at different speeds</p> <p>Children can make use of the X and Y properties of objects in their coding.</p> <p>Children can create an if statement in their program.</p> <p>Children can use a timer and if statement to introduce selection in their program.</p> <p>Children can explain what a variable is in programming.</p> <p>Children can explain why variables need to be named.</p> <p>Children can create a variable in a program.</p> | <p>Children can create a table of data on a spreadsheet.</p> <p>Children can use a spreadsheet program to automatically create charts and graphs from data.</p> <p>Children can use the ‘more than’, ‘less than’ and ‘equals’ tools to compare different numbers and help to work out solutions to sums.</p> <p>Children can use the ‘spin’ tool to count through times tables.</p> <p>Children can describe a cell location in a spreadsheet using the notation of a letter for the column followed by a number for the row.</p> <p>Children can find specified locations in a spreadsheet.</p> | <p>Children understand what makes a good password for use on the Internet.</p> <p>Children are beginning to realise the outcomes of not keeping passwords safe.</p> <p>Children can contribute to a concept map of all the different ways they know that the Internet can help us to communicate.</p> <p>Children have contributed to a class blog with clear and appropriate messages.</p> <p>Children understand that some information held on websites may not be accurate or true.</p> <p>Children are beginning to understand how to search the Internet and how to think critically about the results that are returned.</p> <p>Children have accessed and assessed a ‘spoof’ website, creating and sharing their own ‘spoof’ webpage mock-up.</p> <p>Children can identify some physical and emotional effects of playing/watching inappropriate content/games.</p> | <p><u>Not covered this year</u></p> |

|  |  |  |   |  |
|--|--|--|---|--|
| <p>Children can set/change the variable values appropriately to create a timer.</p> <p>Children can show how their character repeats an action and explain how they caused it to do so.</p> <p>Children are beginning to understand how the use of the timer differs from the repeat command and can experiment with the different methods of repeating blocks of code.</p> <p>Children can explain how they made objects repeat actions.</p> <p>Children can explain what debug (debugging) means.</p> <p>Children have a clear idea of how to use a design document to start debugging a program.</p> <p>Children can debug simple programs.</p> <p>Children can explain why it is important to save their work after each functioning iteration of the program they are making.</p> |  | <p>Children relate cyberbullying to bullying in the real-world and have strategies for dealing with online bullying including screenshot and reporting.</p> <p>Children can list a range of different ways to communicate and use 2Connect to highlight the strengths and weaknesses of each method.</p> <p>Children can open an email and respond to it, sending emails to other children in the class.</p> <p>Children have written rules about how to stay safe using email.</p> <p>Children have created a quiz about email safety which explores scenarios that they could come across in the future.</p> <p>Children can attach work to an email.</p> <p>Children know what CC means and how to use it.</p> <p>Children can read and respond to a series of email communications.</p> <p>Children can attach files appropriately and use email communication to explore ideas.</p> |   |  |
| <b><u>Music</u></b>  | <b><u>Database and Graphing</u></b>  | <b><u>Writing and Presenting</u></b>   | <b><u>Communication and networks</u></b>  |  |
| <b><u>Not covered this year</u></b>  | <p>Children understand how YES/NO questions are structured and answered.</p> <p>Children have used YES/NO questioning to play a simple game with a friend.</p> <p>Children have contributed to a class branching database about fruit.</p> <p>Children have completed a branching database about vegetables.</p> <p>Children can choose a suitable topic for a branching database.</p> <p>Children can select and save appropriate images.</p> | <p>To understand the names of the fingers.</p> <p>To understand what is meant by – home, bottom, and top rows.</p> <p>Developed ability to touch type the home, bottom, and top rows.</p> <p>Children can use two hands to type the letters on the keyboard.</p> <p>Children can touch type using the left hand.</p> <p>Children can touch type using the right hand.</p>  | <p>Children know that a computer simulation can represent real and imaginary situations.</p> <p>Children can give some examples of simulations used for fun and for work.</p> <p>Children can give suggestions of advantages and problems of simulations</p> <p>Children can explore a simulation.</p> <p>Children can use a simulation to try out different options and to test predictions.</p> |  |

|   |  |  |  |  |
|---|--|--|--|--|
|   | <p>Children can create a branching database.</p> <p>Children know how to use and debug their own branching database.</p> <p>Children can set up a graph with a given number of fields.</p> <p>Children can enter data for a graph.</p> <p>Children can produce and share graphs made on the computer.</p> <p>Children have solved a maths investigation.</p> <p>Children can present the results in a range of graphical formats.</p>  |  | <p>Children can begin to evaluate simulations by comparing them with real situations and considering their usefulness.</p> <p>Children can recognise patterns within simulations and make and test predictions.</p> <p>Children can identify the relationships and rules on which the simulations are based and test their predictions.</p> <p>Children can evaluate a simulation to determine its usefulness for purpose.</p> |  |
| <p><b><u>Topic Title</u></b><br/>3.2 – online safety</p> <p><b><u>Links to NC</u></b><br/><u>Digital Literacy</u><br/>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p> <p><b><u>Key Knowledge &amp; Vocabulary</u></b><br/>Search engine, e-safety, reliable, unreliable, publish, program, sequence, output, network input, algorithm, debug, coding, selection, variable, repeat, command</p> <p><b><u>Sequence of Lessons</u></b><br/><br/>1 – L.O. I am learning to understand password safety<br/>2 – L.O. I am learning to consider the validity of online material<br/>3 – L.O. I am learning to understand age restrictions</p> <p><b><u>How does this link build on previous learning?</u></b></p> | <p><b><u>Topic Title</u></b><br/>3.1 – coding</p> <p><b><u>Links to NC</u></b><br/><u>Computer Science</u></p> <p>Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts.</p> <p>Use sequence, selection and repetition in programs; work with variables and various forms of input and output.</p> <p>Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs</p> <p><b><u>Key Knowledge &amp; Vocabulary</u></b><br/>Search engine, e-safety, reliable, unreliable, publish, program, sequence, output, network input, algorithm, debug, coding, selection, variable, repeat, command</p> <p><b><u>Sequence of Lessons</u></b><br/>1 – L.O. #### Year 4

| <b><u>Coding and computational thinking</u></b>  | <b><u>Spreadsheets</u></b>  | <b><u>Internet and Email</u></b>   | <b><u>Art and Design</u></b>   |
|--|---|--|--|
| <p>Children can use sketching to design a program and reflect upon their design.</p> <p>Children can create code that conforms to their design</p> <p>Children can create an 'If/else' statement.</p> <p>Children understand what a variable is in programming.</p> <p>Children can set/change the variable values appropriately.</p> <p>Children can interpret a flowchart that depicts an if/else flowchart.</p> <p>Children can show how a character repeats an action and explain how they caused it to do so.</p> <p>Children can make a character respond to user keyboard input.</p> <p>Children can explain what a variable is when used in programming.</p> <p>Children can create a timer that prints a new number to the screen every second.</p> | <p>Children can use the number formatting tools to appropriately format numbers.</p> <p>Children can add a formula to a cell to automatically make a calculation in that cell.</p> <p>Children can use the timer, random number and spin button tools.</p> <p>Children can combine tools to make fun ways to explore number.</p> <p>Children can use a series of data in a spreadsheet to create a line graph and interpret data from it.</p> <p>Children can make practical use of a spreadsheet to help them plan actions.</p> <p>Children can use the currency formatting</p> <p>Children can allocate values to images and use these to explore place value.</p> <p>Children can use a spreadsheet made to check their understanding of a mathematical concept.</p> | <p>Children know that security symbols such as a padlock protect their identity online.</p> <p>Children know the meaning of the term 'phishing' and are aware of the existence of scam websites.</p> <p>Children can explain what a digital footprint is and how it relates to identity theft.</p> <p>Children can give examples of things that they wouldn't want to be in their digital footprint.</p> <p>Children can identify possible risks of installing free and paid for software.</p> <p>Children know that malware is software that is specifically designed to disrupt, damage, or gain access to a computer.</p> <p>Children know what a computer virus is.</p> <p>Children are able to determine whether activities that they undertake online, infringe another's' copyright knowing the difference between researching and using information and copying it</p> | <p>Children have put together a simple animation using paper to create a flick book.</p> <p>Children have an understanding of animation 'frames'.</p> <p>Children have made a simple animation using 2Animate</p> <p>Children know what the Onion Skin tool does in animation and can use it to create an animated image.</p> <p>Children can use backgrounds and sounds to make more complex and imaginative animations.</p> <p>Children know what stop motion animation is and how it is created.</p> <p>Children have used ideas from existing stop motion films to recreate their own animation.</p> <p>Children have shared their animations and commented on each other's work</p> |

|   |                               |   |                                   |
|---|-------------------------------|---|-----------------------------------|
| <p>Children can explain how they made their program change the number every second</p> <p>Children can create an algorithm modelling the sequence of a simple event.</p> <p>Children can manipulate graphics in the design view to achieve the desired look for the program.</p> <p>Children can use an algorithm when making a simulation of an event on the computer.</p> <p>Children can make good attempts to break down their aims for a coding task into smaller achievable steps.</p> <p>Children recognise the need to start coding at a basic level of abstraction to remove superfluous details from their program that do not contribute to the aim of the task.</p> <p>Children know what the different instructions are in Logo and how to type them.</p> <p>Children can follow simple Logo instructions to create shapes on paper and in Logo</p> <p>Children can create Logo instructions to draw letters of increasing complexity.</p> <p>Children can write Logo instructions for a word of four letters.</p> <p>Children can predict what shapes will be made from Logo instructions.</p> <p>Children can create shapes using the Repeat function.</p> <p>Children can find the most efficient way to draw shapes.</p> <p>Children can use the Build feature.</p> <p>Children can create 'flowers' using Logo.</p> |                               | <p>Children know about citing sources that they have used.</p> <p>Children are able to take more informed ownership of the way that they choose to use their free time, recognising a need to find a balance between being active and digital activities.</p> <p>Children can give reasons for limiting screen time</p> <p>Children can structure search queries to locate specific information.</p> <p>Children have used search to answer a series of questions.</p> <p>Children have written search questions for a friend to solve</p> <p>Children can analyse the contents of a web page for clues about the credibility of the information.</p> |                                   |
| <b>Music</b>  | <b>Databases and Graphing</b> | <b>Writing and Presenting</b>   | <b>Communication and networks</b> |

|   |  |  |   |
|---|--|--|---|
| <p><u>Not covered this year</u></p>   | <p><u>Not covered this year</u></p>  | <p>Children have looked at and discussed a variety of written material where the font size and type are tailored to the purpose of the text.</p> <p>Children have used text formatting to make a piece of writing fit for its audience and purpose.</p> <p>Children have interpreted a variety of incoming communications and used these to build up the details of a story- writing their own newspaper report.</p> <p>Children have mind-mapped ideas for a community campaign, using the ideas to create a persuasive text.</p> <p>Children have assessed their texts using criteria to judge their suitability for the intended audience.</p>  | <p>Children can name the different parts of a desktop computer.</p> <p>Children know what the function of the different parts of a computer is.</p> <p>Children have created a leaflet to show the function of computer parts</p>                                   |
| <p><b>Topic Title</b><br/>Online safety-4.2</p> <p><b>Links to NC</b></p> <p><b>Digital Literacy</b><br/>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p> <p><b>Key Knowledge &amp; Vocabulary</b><br/>Computer virus, cookies, copyright, digital footprint, email, identity theft, malware, phishing, plagiarism, spam</p> <p><b>Sequence of Lessons</b><br/>LO I am learning to understand how children can protect themselves from online identity theft and understand that information put online leaves a digital footprint or trail and that this can aid identity theft.</p> <p>LO I am learning to Identify the risks and benefits of installing software including apps.</p> <p>LO I am learning to understand that copying the work of others and presenting it as their own is called 'plagiarism' and to consider the consequences of plagiarism.</p> | <p><b>Topic Title</b><br/>Coding-4.1</p> <p><b>Links to NC</b></p> <p><b>Computer Science</b><br/>Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs</p> <p>Use sequence, selection, and repetition in programs; work with variables and various forms of input and output</p> <p>Solve problems by decomposing them into smaller parts</p> <p><b>Key Knowledge &amp; Vocabulary</b><br/>Coding, sketch, storyboard, program, design, algorithm, If/else statement, variable, flowchart, command, counting machine, timer, simulation,</p> <p><b>Sequence of Lessons</b><br/>LO I am learning to use a sketch or storyboard to represent a program design and algorithm and then use the design to create a program.</p> | <p><b>Topic Title</b><br/>Effective searching-4.7</p> <p><b>Links to NC</b></p> <p><b>Information Technology</b><br/>Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content</p> <p><b>Key Knowledge &amp; Vocabulary</b><br/>Easter egg, internet, internet browser, search, search engine, spoof website, website</p> <p><b>Sequence of Lessons</b><br/>LO I am learning to locate information on the search results page</p> <p>LO I am learning to use search effectively to find out information</p> <p>LO I am learning to assess whether an information source is true and reliable</p> <p><b>How does this link build on previous learning?</b></p> | <p>Animation- links to ones seen in the world- job links as an animator.</p> <p>Logo- importance of being able to control things remotely- submersibles, space exploration</p> <p>Writing for a purpose- links to rainforest topic and impacts of deforestation</p> |

|   |   |   |  |

## Year 6

| <b><u>Coding and computational thinking</u></b>   | <b><u>Spreadsheets</u></b>   | <b><u>Internet and Email</u></b>  | <b><u>Writing and Presenting</u></b>   |
|---|--|---|--|
| <p>Children can plan a program before coding to anticipate the variables that will be required to achieve the desired effect.</p> <p>Children can follow through plans to create the program.</p> <p>Children can debug when things do not run as expected.</p> <p>Children can explain what functions are and how they can be created and labelled.</p> <p>Children can explain how to move code from one tab to another.</p> <p>Children can explain how they organised code in a program into functions to make it easier to read.</p> <p>Children can code programs that take text input from the user and use this in the program.</p> | <p>Children can create a spreadsheet to answer a mathematical question relating to probability.</p> <p>Children can take copy and paste shortcuts.</p> <p>Children can problem solve using the count tool.</p> <p>Children can create a machine to help work out the price of different items in a sale.</p> <p>Children can use the formula wizard to create formulae.</p> <p>Children can use a spreadsheet to solve a problem.</p> <p>Children can use a spreadsheet to model a real-life situation and come up with solutions.</p> <p>Children can make practical use of a spreadsheet to help plan actions.</p> | <p>Children have used the example game and further research to refresh their memories about risks online including sharing location, secure websites, spoof websites, phishing and other email scams.</p> <p>Children have used the example game and further research to refresh their memories about the steps they can take to protect themselves including protecting their digital footprint, where to go for help, smart rules and security software.</p> <p>Children understand how what they share impacts upon themselves and upon others in the long-term.</p> <p>Children know about the consequences of promoting inappropriate content online and how to put a stop to such behaviour when they experience it or witness it as a bystander.</p> | <p>Children understand how a blog can be used as an informative text.</p> <p>Children understand the key features of a blog.</p> <p>Children can work collaboratively to plan a blog.</p> <p>Children can create a blog with a specific purpose.</p> <p>Children understand that the way in which information is presented has an impact upon the audience.</p> <p>Children understand that blogs need to be updated regularly to maintain the audience's interest and engagement.</p> <p>Children can post comments and blog posts to an existing class blog.</p> |

|  |   |   |  |
|--|---|---|--|
| <p>Children can attribute variables to user input.</p> <p>Children are aware of the need to code for all possibilities when using user input.</p> <p>Children can follow flowcharts to create and debug code.</p> <p>Children can create flowcharts for algorithms.</p> <p>Children can be creative with the way they code to generate novel visual effects.</p> <p>Children can follow through the code of how a text adventure can be programmed.</p> <p>Children can adapt an existing text adventure to make it unique to their requirements.</p> <p>Children can describe what a text adventure is and map out a story-based text adventure.</p> <p>Children can create, test and debug using their plan.</p> <p>Children can split their adventure-game design into appropriate sections to facilitate creating it.</p> <p>Children can map out an existing text adventure.</p> <p>Children can contrast a map-based game with a sequential story-based game</p> <p>Children can create their own text-based adventure based upon a map.</p> <p>Children can use coding concepts of functions, two-way selection (if/else statements) and repetition in conjunction with one another to code their game.</p> <p>Children make logical attempts to debug their code when it does not work correctly</p> | <p>Children can use a spreadsheet to model a real-life situation and come up with solutions that can be applied to real life.</p> | <p>Children can take more informed ownership of the way that they choose to use their free time. They recognise a need to find a balance between being active and digital activities.</p> <p>Children can give reasons for limiting screen time.</p> <p>Children can talk about the positives and negative aspects of technology and balance these opposing views</p> | <p>Children understand the approval process that their posts go through and demonstrate an awareness of the issues surrounding inappropriate posts and cyberbullying.</p> <p>Children can comment on and respond to other blogs.</p> <p>Children can assess the effectiveness and impact of a blog.</p> <p>Children have used the 2DIY activities to create a picturebased quiz.</p> <p>Children have considered the audience's ability level and interests when setting the quiz.</p> <p>Children have shared their quiz and responded to feedback.</p> <p>Children understand the different question types within 2Quiz.</p> <p>Children have ideas about what sort of questions are best suited to the different question types.</p> <p>Children have used 2Quiz to make and share a science quiz.</p> <p>Children have considered the audience's ability level and interests when setting the quiz.</p> <p>Children have chosen an appropriate Text Toolkit tool to make their own grammar game.</p> <p>Children have designed their own quiz based on one of the 2Investigate example databases.</p> <p>Children have used their knowledge of quiz types to create a quiz show quiz based on a curriculum area.</p> |
| <u>Music</u>   | <u>Databases and Graphing</u>   | <u>Art and Design</u>   | <u>Communication and networks</u>  |
| <u>Not covered in this year</u>  | <u>Not covered in this year</u>   | <u>Not covered in this year</u>   | Children know the difference between the World Wide Web and the internet.  |

|   |   |   |   |
|---|---|---|---|
|   |   |   | <p>Children know about their school network.</p> <p>Children have researched and found out about Tim Berners-Lee.</p> <p>Children have considered some of the major changes in technology which have taken place during their lifetime and the lifetime of their teacher/another adult.</p>   |
| <p><b>Unit 6.2 - Online Safety (2 weeks)</b></p> <p><b><u>Links to NC</u></b></p> <p><u>Computer Science</u><br/>Understand computer networks, including the Internet; how they can provide multiple services, such as the World Wide Web; and the opportunities they offer for communication and collaboration.</p> <p><u>Information Technology</u><br/>Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content.</p> <p><u>Digital Literacy</u><br/>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact*.<br/>* And discussed in other units</p> <p><b><u>Key Knowledge &amp; Vocabulary</u></b><br/>Digital footprint, password, PEGI rating, phishing, screen time, spoof website.</p> <p><b><u>Sequence of Lessons</u></b><br/>L.O. I am learning to identify benefits and risks of mobile devices broadcasting the location of the user/device.<br/>L.O. I am learning to identify secure sites by looking for privacy seals of approval.<br/>L.O. I am learning to identify the benefits and risks of giving personal information.<br/>L.O. I am learning to review the meaning of a digital footprint.<br/>L.O. I am learning to have a clear idea of appropriate online behaviour.<br/>L.O. I am learning to understand how information online can persist.</p> | <p><b>Unit 6.1 – Coding (6 weeks)</b></p> <p><b><u>Links to NC</u></b></p> <p><u>Computer Science</u><br/>Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts</p> <p>Use sequence, selection, and repetition in programs; work with variables and various forms of input and output</p> <p>Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs</p> <p><u>Information Technology</u><br/>Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information</p> <p><b><u>Key Knowledge &amp; Vocabulary</u></b><br/>Action, alert, algorithm, bug, code design, command, control, debug, event, function, get input, if/else, input, output, object, repeat, sequence, selection, simulation, tabs, timer, variable</p> <p><b><u>Sequence of Lessons</u></b><br/>L.O. I am learning to use the program design process, including flowcharts, to develop algorithms for more complex programs using and understanding of abstraction and decomposition to define the important aspects of the program.<br/>L.O. I am learning to code, test and debug from these designs.</p> | <p><b>Unit 6.5 - Text Adventures (5 weeks)</b></p> <p><b><u>Links to NC</u></b></p> <p><u>Computer Science</u><br/>Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts.</p> <p>Use sequence, selection and repetition in programs; work with variables and various forms of input and output.</p> <p>Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs.</p> <p><u>Information Technology</u><br/>Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.</p> <p><b><u>Key Knowledge &amp; Vocabulary</u></b><br/>Text-based adventure, concept map, debug, sprite, function.</p> <p><b><u>Sequence of Lessons</u></b><br/>L.O. I am learning what a text adventure is.<br/>L.O. I am learning to plan a story adventure.<br/>L.O. I am learning to make a story-based adventure.<br/>L.O. I am learning about map-based text adventures.<br/>L.O. I am learning to code a map-based text adventure.</p> <p><b><u>How does this link build on previous learning?</u></b><br/>Children will build on their coding experience.<br/>Y5 – Children have created own game. Game Creator (5.5)<br/>Y6 – Coding (6.1)</p> | <p>Coding links – jobs, coders are responsible for creating what we see on computers.</p> <p>Text adventure- links to literacy/ WW2 project.</p> <p>Networks- importance of Internet- how it started, how it is used both in homes and work. How it is used in school</p> <p>Blogs- looking a blogs written by storm chasers, nature activists, geologists, meteorologists etc...</p> <p>Quiz- based on WW2 project/ an</p> |

|  |  |  |  |
|--|--|--|--|
| <p>L.O. I am learning to understand the importance of balancing game and screen time with other parts of my life.<br/> L.O. I am learning to identify the positive and negative influences of technology on health and the environment.</p> <p><b><u>How does this link build on previous learning?</u></b><br/> Children have had regular teaching of online safety/behaviour throughout school.<br/> Each year group has focused on an online safety unit.</p> <p><b>Unit 6.3 – Spreadsheets (5 weeks)</b><br/> <b><u>Links to NC</u></b><br/> <u>Information Technology</u><br/> Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.</p> <p><b><u>Key Knowledge &amp;</u></b><br/> Vocabulary<br/> Average, advance mode, copy/paste, columns, cell, charts, count tool, dice, equals tool, formula, formula wizard, move cell tool, random tool, rows, spin tool, spreadsheet, timer</p> <p><b><u>Sequence of Lessons</u></b><br/> L.O. I am learning to use a spreadsheet to investigate the probability of the results of throwing many dice.<br/> L.O. I am learning to use the formula wizard to add a formula to a cell to automatically make a calculation in that cell.<br/> L.O. I am learning to create graphs showing the data collected.<br/> L.O. I am learning to type in a formula for a cell to automatically make a calculation in that cell. L.O. I am learning to use a spreadsheet to create computational models and answer questions.</p> <p><b><u>How does this link build on previous learning?</u></b><br/> Following an introduction to spreadsheets in Years 1 and 2, children have learnt how to:<br/> Y3 – create a table of data and produce charts and graphs from this. Identify a cell's location. (3.3)<br/> Y4 – format and enter values. Produce a line graph. (4.3)<br/> Y5 – Use formulae, count tools and perform calculations. (5.3)</p> <p><b><u>NATIONAL ONLINE SAFETY</u></b><br/> <i>Self-image and identity – Video and Activity 5</i></p> | <p>L.O. I am learning to use functions and tabs in 2Code to improve the quality of the code.<br/> L.O. I am learning to code user interactivity using input functions.</p> <p><b><u>How does this link build on previous learning?</u></b><br/> Each year group has focused on a Coding unit.</p> <p><b>Unit 6.4 - Blogging (5 weeks)</b><br/> <b><u>Links to NC</u></b><br/> <u>Computer Science</u><br/> Understand computer networks, including the Internet; how they can provide multiple services, such as the World Wide Web; and the opportunities they offer for communication and collaboration.</p> <p><u>Information Technology</u><br/> Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.</p> <p><u>Digital Literacy</u><br/> Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact*.<br/> * And discussed in other units</p> <p><b><u>Key Knowledge &amp;</u></b><br/> <b><u>Vocabulary</u></b><br/> Audience, blog, blog page, blog post, collaborative, icon</p> <p><b><u>Sequence of Lessons</u></b><br/> L.O. I am learning to identify the purpose of writing a blog and its key features.<br/> L.O I am learning to plan the theme and content for a blog and write the content.<br/> L.O. I am learning to consider the effect upon the audience of changing the visual properties of the blog.<br/> L.O. I am learning to understand the importance of regularly updating the content of a blog.</p> | <p><b>Unit 6.6 – Networks (3 weeks)</b><br/> <b><u>Links to NC</u></b><br/> <u>Computer Science</u><br/> Understand computer networks, including the Internet; how they can provide multiple services, such as the World Wide Web; and the opportunities they offer for communication and collaboration.</p> <p><b><u>Key Knowledge &amp;</u></b><br/> <b><u>Vocabulary</u></b><br/> Internet, World Wide Web, Network, Local Area Network (LAN), Wide Area Network, (WAN), router, network cables, wireless.</p> <p><b><u>Sequence of Lessons</u></b><br/> L.O. I am learning what the Internet consists of.<br/> L.O. I am learning what a LAN and a WAN are.<br/> L.O. I am learning how the Internet is accessed in school.<br/> L.O. I am learning to research the age of the Internet.<br/> To think about what the future might hold.</p> <p><b><u>How does this link build on previous learning?</u></b><br/> Y4 – Children have looked at the hardware involved in computing in Hardware Investigations (4.8)<br/> Y3 – Children have looked at how e-mail systems work.</p> <p><b><u>NATIONAL ONLINE SAFETY</u></b><br/> <i>Privacy and security – Video and Activity 4</i><br/> <br/> <i>Copyright and ownership – Video and Activity 3</i></p> | <p>area of interest for the children.</p> <p>Binary- look at how coding is written in binary form.</p> |
